santiagogarcia@arizona.edu|https://www.linkedin.com/in/santiago-garcia-az/

Business Analytics student at the University of Arizona with experience in financial statement analysis, risk assessment, and quantitative modeling. Seeking a Summer 2027 Analyst internship to apply analytical, research, and data-driven decision-making skills to evaluate financial performance and risk.

EDUCATION

University of Arizona, Eller College of Management **Tucson, AZ**
Bachelor of Science in Business Analytics *Expected May 2028*

- **Major:** Business Analytics | **Minor:** French
- **Honors:** Wildcat Award Scholarship, Dean's List

Personal Portfolio Manager (Family Accounts)

Independent Investment Research **Marana, AZ**
Multi Asset, Multi Strategy Investment *January 2024 – Present*

- Conduct equity and macroeconomic research across public companies, industries, and asset classes to support portfolio allocation decisions
- Analyze company financial statements, earnings reports, economic data, and SEC filings to identify investment risks and opportunities
- Assist in managing diversified portfolios utilizing equities, ETFs, fixed-income instruments, and derivatives
- Develop quantitative models and dashboards using Excel and Python to evaluate risk-adjusted returns and portfolio exposures

Projects Done for Investment Purposes

Proprietary Algorithmic index trading strategy

- A strategy which I developed, based on research papers written by the NY Fed, and tested on 7000 lines of historic market data, across 3 different asset types (CME Futures, Perpetual Futures, Index ETF)
- The strategy is running currently with a 55.76%-win rate and a Sortino ratio of 1.39, Sharpe ratio 0.96. It has returned 14.76% YTD (9/30/2026)

RiskRadar App

- Designed and developed a web application that evaluates policy exposure across more than 2,000 NYSE and NASDAQ listed companies
- Integrated SEC filings, company disclosures, news sources, and political contribution data into a centralized risk assessment framework
- Utilized AI-assisted workflows to summarize regulatory and legislative developments affecting company operations
- Constructed a proprietary scoring methodology to identify firms with elevated political and regulatory risk exposure

LEADERSHIP EXPERIENCE

Federal ACP Program Affiliate Office/ Homeless Outreach **Tucson, AZ**
Assistant Manager *October 2023 – July 2024*

- Managed closing shifts at the office
- Collaborated with state agencies and nonprofit organizations to enroll underserved populations in the Affordable Connectivity Program
- Helped benefits fraud victims navigate government programs to reinstate their benefits
- Implemented new workflow from ID processing to SIM card activation which improved efficiency by 20%, and was adopted office wide
